RE: Permit to Commence Small Mining Operations, Lakeview Rock Products, Inc., Thomas Pit, Task # 1441, M0110002, Davis County, Utah

Dear Mr. Larsen:

The Division finds your notice of intention (Notice) complete and has approved the reclamation surety for the current disturbances associated with the Thomas Pit (including disturbed areas outside the 5-acre small mine area). A Large Mining Notice was received June 23, 2006 for the entire property. You are now permitted to conduct small mining operations as outlined in the Small Mining Notice. A copy of the Approved Notice is enclosed.

The Division's web page at <http://ogm.utah.gov/> under the Mining Program has a link to the rules you are expected to operate under and other information to assist you in complying with program requirements. Please pay particular attention to the following regulatory requirements.

- Mining disturbance is only allowed in the area identified in the Notice and Reclamation Contract.
- Stockpiling topsoil material prior to beginning activities will help ensure successful revegetation. Even the first few inches of undeveloped material are worth saving to aid in later revegetation efforts, and future regulatory surety release.
- If you encounter any archaeological or historical items, you are asked to notify this office and State History of your find.
- Annual reports are due by December 31st.
- The Division requests that the disturbed area boundary (including assess/haul roads) be marked with metal T-posts to identify the area permitted for mining.
